

Nahuel Wagner

Posadas, Misiones, Argentina • [linkedin.com/in/nahuewagner](https://www.linkedin.com/in/nahuewagner) • nahuel.wagner97@gmail.com • github.com/Nahuelito97

Backend / Full Stack Software Engineer with 5+ years of experience, strong background in PHP (Laravel) and MySQL, and proven experience building REST APIs and system integrations in production environments.

Also experienced with Node.js (NestJS) and modern frontend frameworks, with a strong focus on clean architecture, scalability, and maintainability.

PROFESSIONAL EXPERIENCE

TUTU

Remote, Argentina

June 2024 – July 2025

Full Stack Developer (June 2024 – December 2024)

- Long-term maintainability.
- Implemented Clean Architecture with DDD + SOLID across core modules, reducing codebase maintainability issues by **~30%**.
- Built scalable backend services with NestJS + Firebase/Auth, enabling **secure onboarding for thousands of users** with role-based flows.
- Integrated MercadoPago (Wallet Connect, cash, links), **reducing failed transactions by ~25%** and automating reconciliation to eliminate manual processing
- Created custom HTML email templates using React Email and sent them via AWS SES.
- Built end-to-end features using NestJS ([Node.js](https://nodejs.org/)), React and more
- Participated in full product cycles: planning, development, testing, and deployment
- Created RESTful APIs, database schemas
- Built a full operational admin panel (drivers, passengers, incidents, company data), reducing operational workload by **~40%** through automation.

Tech Lead (January 2025 – July 2025)

- Led a 8-person development team, increasing delivery speed by **~20%** through improved sprint planning and code review processes.
- Defined technical strategy, architecture decisions, and development standards.
- Reviewed PRs, mentored developers, and ensured code quality.
- Coordinated with product and operations to plan roadmaps, requirements, and releases. Improved maintainability and documentation practices across services.
- Participated in code reviews and agile sprints.

GearthLogic

Full Stack Developer

Remote, Argentina

September 2023 – June 2025

- Delivered end-to-end features (NestJS, React, Laravel, Vue), contributing to a **~15% faster delivery cycle**.
- Participated in full product cycles: planning, development, testing, and deployment
- Technologies: NestJS, PostgreSQL, React, TailwindCSS, GitHub
- Designed/Building robust and scalable APIs REST and database schemas used by **multiple internal services** and front-end UIs using Laravel and React.
- Improved code stability, reducing bugs reported during QA by **~20%**.

- Built and maintained backend services and REST APIs using PHP (Laravel) and MySQL in production environments.

Adsmovil
Backend Developer

Remote, Argentina
June 2022 – December 2022

- Designed Laravel backend features and refactored API endpoints, improving response times by **~20–30%** on high-usage routes.
- Collaborated with product and data teams to develop advertising-related tools and systems
- Participated in code reviews and agile sprints.

WagnerLabs — Founder / Full Stack Developer

Remote, Argentina
September 2020 – Present

- Founder of **WagnerLabs**, my personal software studio and consulting brand focused on building high-quality web applications.
- Delivered custom full stack solutions for clients across diverse industries (education, mobility, e-commerce, operations).
- Designed and developed end-to-end applications using **NestJS, React, Laravel, PostgreSQL, TailwindCSS**, and cloud services.
- Offered consulting, architecture review, debugging, performance optimization, and deployment services. Built reusable internal tooling, templates, and boilerplates to accelerate delivery for future projects.
- Managed client communication, requirement analysis, planning, and technical documentation.
- Improved client workflows through automation, reducing manual tasks by **up to 50%**.
- Provided consulting, debugging, architecture review, and performance optimization.
- Built backend services and integrations using PHP (Laravel) and MySQL for client production systems.

EDUCATION

University Nacional de Misiones
Computer Systems Analyst (In Progress)

Misiones, Argentina
2015 – Present

Universidad Nacional de Misiones
Bachelor of Information Systems (In Progress)

Misiones, Argentina
2015 – Present

Additional Skills

- **Technical Skills**
 - o **Programming Languages:**
 - JavaScript
 - TypeScript
 - PHP
 - HTML

- CSS
- NodeJS
- GO
- JAVA

o Frameworks & Libraries:

- NestJS
- Laravel
- React
- Vue
- Express
- React Hook Form
- TailwindCSS
- Material UI

o Databases:

- PostgreSQL
- MySQL
- MongoDB

o Tools:

- Git
- Docker
- Postman
- Jira
- Trello
- Figma
- AWS SES
- AWS
- Firebase
- MercadoPago
- Digital Ocean

o Other Skills:

- REST APIs
- Clean Architecture (DDD)
- SOLID
- Agile Scrum
- CI/CD
- Microservices
- GraphQL

• Languages:

- o Spanish: Native
- o English: Functional and Technical; currently preparing for B2 certification
- o Portuguese: Functional
- I am currently exploring content creation and streaming (technology and video games) as a personal project.
- Experience working remotely in agile and multicultural teams.
